

# Household Air Purifier for Indoor Air Quality Improvement

This air purifier is available in three sizes to meet different user needs. Its simple appearance makes it suitable for various indoor environments.

## Overview

### AP006 Series Air Purifier

The AP006 series air purifier is designed to significantly enhance indoor air quality in residential environments. Featuring a sleek white rectangular body with rounded edges and an efficient top-vent design, it effectively captures airborne pollutants such as dust, pollen, and smoke. The integrated digital display provides real-time feedback, ensuring users can monitor air quality metrics at a glance.
