

Household Reverse Osmosis Water Filter Machine

This water purification machine utilizes a multi-stage filtration system. It incorporates PP, GAC, and CTO filters to ensure comprehensive water purification for household use.

Product Overview

Clean Water Solution

This household reverse osmosis water filter machine is designed to deliver high-quality, safe drinking water for your family. The system employs a sophisticated multi-stage filtration process to remove impurities effectively. Its compact design makes it an ideal addition to any home kitchen environment.

Technical Specifications

Physical Dimensions	385×185×480 mm
Model Number	QSYL-0176

Filtration System

Filtration Stages

- PP Sediment Filter
- GAC Granular Activated Carbon Filter
- CTO Carbon Block Filter
