

Household Reverse Osmosis Water Purifier

This reverse osmosis water purifier is designed for household use. It features a multi-stage filtration system to remove impurities and contaminants from water, providing clean and safe drinking water.

Product Overview

Clean Water Solution

The RO-15D-L01 reverse osmosis water purifier is designed to provide clean and safe drinking water for household environments. Utilizing a comprehensive multi-stage filtration system, it effectively removes impurities through sediment and activated carbon filters combined with a high-performance reverse osmosis membrane. The floor-standing unit features an intuitive digital display for real-time monitoring and is engineered for convenient operation and straightforward maintenance.

Technical Specifications

Filtration Technology

- Sediment Filtration
- Activated Carbon Filtration
- Reverse Osmosis Membrane

Design Type	Floor-standing, Household
