

Household Steam Iron with Base Unit

This steam iron is designed for household use. It features a separate base unit for water storage and feeds steam to the iron.

Product Overview

Professional Steam Iron System

This household steam iron features a dedicated base unit designed for efficient steam generation and garment care. Its ergonomic handle ensures user comfort during extended ironing sessions, while the blue and white aesthetic provides a clean, modern look. The integrated system allows for variable temperature and steam control, making it a versatile tool for various fabric types.

Technical Specifications

Model Number	CL-2668D
