

Household Water Purification Dispenser

This household water purifier dispenses clean water. It features a two-part construction with a transparent lower section to monitor water levels.

Product Overview

Clean Water Solution

This household water purification dispenser is designed to provide reliable, clean drinking water directly from your civic tap supply. It features a dual-stage filtration system combining intenerating filters and active carbon cartridges to ensure water quality. With a 15L capacity and a compact footprint, it is an ideal countertop solution for daily hydration needs.
