

HSS/TCT Annular Cutter Set with Pilot Pin

This professional cutter set includes a range of cutter sizes crafted from high-speed steel (HSS) or tungsten carbide tipped (TCT) for enhanced durability and cutting performance. The cutters are suitable for use with magnetic drilling machines and other compatible power tools.

Product Overview

Professional Annular Cutter Set

This HSS/TCT Annular Cutter Set is engineered for high-performance hole creation in industrial metalworking applications. Designed for compatibility with magnetic drilling machines, the set offers versatility with both metric and inch sizing options. Each set is conveniently organized in a durable plastic carrying case and includes a step pilot pin for precise centering.
