

Hydraulic Anchor Windlass Mooring Winch

This hydraulic anchor windlass and mooring winch is designed for marine applications. It offers reliable anchor handling and mooring capabilities.

Overview

Robust Marine Anchoring and Mooring Solution

This hydraulic anchor windlass and mooring winch is engineered for reliable performance in demanding marine environments. Designed to facilitate efficient anchor handling and vessel mooring, it features a powerful hydraulic drive system and durable construction. It is built to meet rigorous industry standards, ensuring safety and precision for various maritime operations.

Technical Specifications

Supported Chain Diameters

- 50
- 52
- 54

Performance Metrics

12 m/min
Mooring Speed

9 m/min
Working Speed

60 KN
Mooring Pull

Working Load Capacity

Chain Diameter (mm)	Working Load (KN)
50	106.3
52	114.9
54	123.9

Drum Capacity

! 26 * 200mm * m

Compliance & Standards

Steel Grade

Grade 2 • Grade 3

Certifications

CCS, LR, GL, RS
