

Hydraulic Cable Cutter Kit with Pump and Dies

This hydraulic cable cutter kit includes a pump, cutter head, hydraulic hoses, and assorted dies. It is designed for efficient cutting of heavy-duty cables in industrial and construction applications.

Overview

Industrial Hydraulic Cable Cutter Kit

This comprehensive hydraulic cable cutter kit is engineered for precision and efficiency in heavy-duty industrial and construction environments. The set includes a robust hydraulic pump, a specialized cutter head featuring stepped blades, hydraulic hoses, and a selection of dies to accommodate various cable sizes. Designed for reliability and ease of use, the system utilizes quick-connect fittings for rapid setup and operation.

Technical Specifications

Working Pressure

720 BAR

Working Pressure

10440 PSI

Working Pressure

Kit Components

- Hydraulic pump
- Cutter head with stepped blades
- Hydraulic hoses
- Assorted dies
- Fitted storage case

Key Features

Quick-connect fittings, Heavy-duty construction, Stepped blade design, Portable case
