

# Hydraulic Guillotine Shearing Machine

This hydraulic guillotine shearing machine is designed for shearing metal sheets with precision. It is available in models QC11Y-32X2500, QC11Y-16X6000, and QC11Y-6X4000 to cater to different sheet sizes and cutting requirements.

QC11Y 系列液压剪板机技术参数表

型号 Model	最大剪切厚度 Max. Shear Thickness (mm)	最大剪切宽度 Max. Shear Width (mm)	最大剪切长度 Max. Shear Length (mm)	最大剪切速度 Max. Shear Speed (mm/min)	最大剪切力 Max. Shear Force (kN)	最大电机功率 Max. Motor Power (kW)	最大噪音 Max. Noise (dB)	最大重量 Max. Weight (kg)
QC11Y-6X4000	6	4000	1500-2500	400	400	15	85	15000
QC11Y-16X6000	16	6000	1500-2500	400	400	30	85	25000

## ADDITIONAL IMAGES

## Overview

### QC11Y Series Hydraulic Guillotine Shearing Machine

The QC11Y series hydraulic guillotine shearing machine is a robust metal cutting tool engineered for high-precision industrial applications. Designed to handle varying sheet sizes and thicknesses, this series offers versatility for diverse manufacturing requirements. With a range of models capable of cutting thicknesses from 6mm up to 40mm, these machines provide reliable performance for heavy-duty metal fabrication.

Machine Series

QC11Y Hydraulic Guillotine

## Performance Metrics

### Key Capabilities

**40 mm**

Max Shear Thickness

**6000 mm**

Max Shear Width

**45 kw**

Max Motor Power

## Technical Data

### Model Specifications

Model	Thickness (mm)	Width (mm)	Motor (kw)	Weight (kg)
QC11Y-6x2500	6	2500	7.5	5000
QC11Y-6x3200	6	3200	7.5	6100
QC11Y-6x4000	6	4000	7.5	8200
QC11Y-8x2500	8	2500	11	5800
QC11Y-8x3200	8	3200	11	7700
QC11Y-8x4000	8	4000	11	9100
QC11Y-8x6000	8	6000	15	19800
