

Hydraulic Material Baling Press

This heavy-duty hydraulic baling press compresses materials into compact bales. It is suitable for processing textiles, paper, and plastics, and includes safety features such as pressure relief valves and emergency stop buttons.

Overview

Industrial Hydraulic Baling Press

This heavy-duty hydraulic baling press is engineered for high-efficiency compression of various materials, including woven bags, mesh bags, textiles, paper, and plastics. Designed for industrial environments, it features a robust steel frame and a powerful hydraulic cylinder to create solid, compact bundles. The machine prioritizes operator safety and ease of use, incorporating essential features like pressure relief valves and emergency stop controls.

Technical Specifications

Compatible Materials	Woven Bags, Mesh Bags, Textiles, Paper, Plastics
Construction	Robust steel frame

Safety & Control

Safety Features

- Pressure relief valves
- Emergency stop buttons

Control System	Integrated control panel
