

Hydraulic Reversible Plate Compactor

This plate compactor features a ductile iron base plate for enhanced durability. Its hydraulic system enables both forward and reverse operation.

ADDITIONAL IMAGES

Overview

High-Efficiency Hydraulic Plate Compactor

This hydraulic reversible plate compactor is engineered for superior performance in demanding construction and landscaping environments. Featuring a robust ductile iron base plate and a reliable Honda engine, it delivers consistent compaction force for soil, gravel, and asphalt. The advanced hydraulic system allows for seamless forward and reverse operation, while the ergonomic design ensures ease of use and maneuverability in confined spaces.

Quality Certifications

SGS, CE, ISO

Key Features

Design Advantages

- Ductile iron base plate for enhanced durability
- Open plate design for self-cleaning
- Radius base plate for easy access to corners
- Centrally located lifting bar for easy transport
- Sealed belt cover to prevent sand and soil ingress
- Built-in wheel for easier mobility

Technical Specifications

Model Comparison

Model	Engine Model	Power
JN/PC90	Honda GX160	5.5 hp
JN/PC125	Honda GX160	5.5 hp
JN/PC160	Honda GX160	5.5 hp
JN/PC330	Honda GX390	13 hp

Engine Type

Single cylinder, Four stroke, Air Cooled
