

Hydraulic Toe Jack for Heavy Machinery Lifting

This hydraulic toe jack is designed for lifting heavy machinery and equipment. It features a low-profile toe for accessing tight spaces and a robust hydraulic system for reliable lifting power.

Product Overview

Heavy-Duty Hydraulic Toe Jack

This hydraulic toe jack is engineered for demanding industrial lifting tasks, offering a robust solution for machinery and equipment maintenance. Designed with a low-profile toe, it allows for easy access in tight spaces where standard jacks cannot fit. Built from high-quality steel, it ensures reliability and durability for professional construction and maintenance applications.

Technical Specifications

Available Models

- MHC-5
- MHC-10
- MHC-20
- MHC-30
- MHC-50
- MHC-100

Lifting Height	115 mm
----------------	--------

Net Weight	15 kg
------------	-------

Key Features

Applications	Industrial, Construction, Machinery Maintenance, Heavy Equipment Lifting
