

# Illuminated Field Dressing Knife with Gut Hook and Bone Saw

This field dressing knife features four integrated LED lights for use in low-light conditions. It is equipped with a 5.25-inch rubberized handle, oversized gut hook, bone saw, and a modified drop point blade made of 5CR15 stainless steel.

## Product Overview

### Professional Field Dressing Solution

This multi-functional field dressing knife is engineered for efficiency and precision in demanding outdoor environments. Featuring a robust 5CR15 stainless steel blade and integrated LED illumination, it ensures visibility and performance during low-light operations. The tool set includes a specialized gut hook and bone saw, making it an essential companion for field processing tasks.
