

Illuminated Rectangular Push Button Switch

This illuminated rectangular push button switch is designed for on/off control in various electrical applications. It features a robust construction and clear indication with its illuminated button.

Overview

Specializing in production of buttons and indicators since 1997

Heavy-duty illuminated rectangular switch suitable for various voltage requirements.

Industrial Illuminated Push Button Switch

This rectangular illuminated push button switch is designed for reliable control in AC and DC circuits. Constructed with high-grade zinc alloy and anti-flame plastic, it ensures durability and resistance to electrical erosion. The integrated LED design facilitates clear status indication for ON and OFF states in demanding industrial environments.

Technical Specifications

Fastening Torque

0.8 Nm

Standard

1.2 Nm

Maximum

Rated Insulation Voltage (Ui)	660 V
Conventional Thermal Current (Ith)	10 A
Contact Configuration	1 NO + 1 NC

Environmental Ratings

Protection Levels

- Standard: IP40, IP54
- High Protection: IP65, IP66, IP67, IP68

Ambient Temperature	Operating: -5 to +55 ; Storage: -25 to +70
---------------------	--------------------------------------------

Compliance

Certifications	CE, ISO 9001, RoHS, UL, IEC 60947-5-1
----------------	---------------------------------------

Dimensions and Mounting

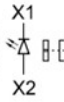

XDL22-CBW8465

Illuminated
Double-headed push button
with integral LED

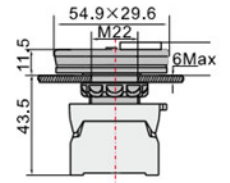

1 flush green marked I
1 projecting red
Marked O
1 central pilot light
IP65

N/O+N/C
220~240V
