

Indoor Digital TV Antenna

This indoor TV antenna is designed for receiving over-the-air digital TV signals. It features a loop design with telescopic rods for optimal signal reception and a black base unit.

Overview

High-Performance Indoor Reception

This indoor digital TV antenna features a traditional design with a glossy finish, engineered to deliver clear Full HD and digital TV signals. It is equipped with retractable dipoles for optimized VHF reception and a swiveling large loop specifically for UHF signals. This versatile unit is an ideal solution for accessing local broadcast channels with enhanced signal quality.

Technical Specifications

VSWR Performance

2.4 VHF VSWR	2.4 UHF VSWR
------------------------	------------------------

VHF Frequency Range	174-230 MHz
UHF Frequency Range	470-862 MHz
Impedance	75 Ω

Connectivity

Connector Options	IEC-connector, F type male
-------------------	----------------------------

Features

Key Design Features

- Retractable dipoles for VHF
- Swiveling large loop for UHF
- Glossy surface finish
- Full HD and digital TV signal support
