

Indoor Wall-Mounted Fan with Protective Cage

This wall-mounted fan is designed for indoor use. It features a protective cage, three blades, and a control panel.

Product Overview

Professional Indoor Air Circulation

This wall-mounted fan is engineered for effective indoor air cooling and circulation in commercial or professional spaces. Featuring a robust protective cage and a high-performance three-blade design, it ensures safety without compromising airflow efficiency. The unit is designed for easy wall mounting, making it an ideal space-saving solution for environments requiring consistent cooling.
