

Industrial Alarm Bell

This alarm bell is designed for industrial applications requiring a loud audible signal. Its durable construction and polished metal dome ensure reliable performance in demanding environments.

Product Overview

Industrial Alarm Bell

This robust alarm bell is specifically engineered for demanding industrial environments, including apparel and textile machinery settings. Featuring a polished metal dome, it delivers loud and clear sound projection for effective alerts. Its durable black base ensures long-lasting performance and reliable operation under rigorous conditions.

Technical Specifications

Ideal Applications

- Industrial Machinery
- Textile Manufacturing
- Apparel Production Facilities

Key Design Features

High-Visibility • Industrial Grade • Impact Resistant

Construction Materials

Polished Metal, Durable Plastic
