

Industrial Battery Charger with Analog Monitoring

This high-power battery charger is designed for industrial applications. It features analog meters for monitoring voltage and current, indicator lights, and robust construction.

Overview

Industrial-Grade Power Solution

This high-power battery charger is engineered specifically for demanding industrial environments where reliability is paramount. It features integrated analog monitoring for real-time voltage and current tracking, ensuring precise control over the charging process. With its robust construction and intuitive status indicator lights, this unit provides a dependable solution for maintaining various battery types in heavy-duty applications.

Technical Specifications

Monitoring Capabilities

- Analog voltage meter
- Analog current meter
- Status indicator lights

Model Identifier	PCA-1200A
Suitable Environments	Industrial, Heavy-duty, Demanding Environments
