

Industrial Block Ice Production Machine

This industrial block ice machine is engineered for efficient and reliable ice production. It features a robust refrigeration system and a digital control panel for precise temperature management.

Zhejiang Qingfeng Refrigeration Equipment Manufacturing Co., Ltd

Product Overview

Industrial Block Ice Production Machine

This industrial block ice machine is engineered for high-performance applications, specifically optimized for coastal and tropical environments. It features a robust, integrated design that simplifies installation, requiring only power and water connections to begin operation. With advanced energy economizers and high-quality international compressor components, this machine delivers stable, reliable performance for demanding commercial needs.

Technical Specifications

Available Ice Block Weights

- 2kg
- 5kg
- 10kg
- 20kg
- 50kg
- 70kg

Ice Production Cycle Times

2h, 3h, 4h, 8h, 12h, 24h

Installation

Plug-and-play integrated system; requires only water and power source connection.

Design & Build

Environment Suitability

Coastal Regions • Tropic Regions

Patent Certification

ZL2006 2 0160341.6

Logistics

Packaging Method

Air bubble film inner layer with protective wooden box outer layer.
