

Industrial Control Box for Chemical Processing

Industrial control box designed for chemical processing and manufacturing environments. Features a metal enclosure with cable gland and directional indicators for controlling motors or actuators.

Product Overview

Industrial Control Solution

This industrial control box is designed for robust operation in demanding environments, such as chemical processing and manufacturing facilities. It provides reliable motor or actuator control with a compact, durable enclosure. Built for standard electrical configurations, it ensures consistent performance for essential industrial machinery.

Technical Specifications

Power Rating

0.25 HP
Horsepower

Model Number	CH-12
Voltage Rating	220 V
Rated Current	2.5 A
Frequency	50/60 Hz

Compliance & Origin

Country of Origin
Made in China
