

Industrial Cooling Fan

This high-performance cooling fan is designed for industrial applications. The optimized blade design delivers efficient airflow and heat dissipation.

Overview

Industrial Cooling Solutions

This high-performance cooling fan is specifically engineered for demanding industrial environments, including machinery and control panels. Featuring a robust, durable frame and advanced impeller design, it ensures consistent airflow and efficient heat dissipation. Its optimized construction provides reliable operation, making it an essential component for protecting sensitive electronic equipment.

Performance

Key Performance Indicators

12 V

Voltage

Certifications & Features

Build Features

Durable Frame, Optimized Impeller, High-Performance, Efficient Airflow

Applications

Recommended Use

- Industrial Machinery
- Control Panels
- Electronic Equipment Cooling
