

Industrial Electric Heater

This industrial electric heater provides a controlled heating solution for industrial applications. The unit features a digital display, indicator lights, and casters for mobility.

Overview

Industrial-Grade Heating Solution

The EA-100 is a robust industrial heating unit designed for demanding environments. Engineered for efficiency, it offers a substantial heating capacity and precise control over temperature and humidity settings. Its mobile cabinet design ensures it can be easily positioned where needed, making it an ideal choice for professional industrial applications.

Technical Specifications

Power Supply	a.c 220V/50Hz / 110V/60Hz
Power Consumption	2.1 KW

Performance Metrics

Core Performance Metrics

100 L/day

Production Capacity

100 L

Storage Capacity

Operating Environment

Operating Ranges

Parameter	Range
Temperature	15-40
Humidity	35%-95%

Physical Attributes

Dimensions	65 x 105 x 142 cm
Weight	190 Kg

Classification

Category

Industrial-size Series
