

Industrial Engine

The LNAE3 engine is a robust and reliable power source designed for various industrial applications. It features a durable construction with a blue-painted engine block and a black-painted cylinder head.

Overview

Industrial Power Solution

The LNAE3 industrial engine is a robust and reliable power source engineered for demanding environments. Designed with durability in mind, it features a heavy-duty construction with a distinct blue-painted engine block and a black-painted cylinder head. This engine is fully equipped with essential components including a starter motor, alternator, and fuel filter, ensuring optimal performance and longevity for various industrial applications.

Technical Specifications

Model Identifier	LNAE3
Serial/Reference Code	FY 0604A

Key Components

Included Components	Starter Motor, Alternator, Fuel Filter
---------------------	--

Design & Build

Finish Details

- Blue-painted engine block
- Black-painted cylinder head
