Overview

Industrial Cleaning Performance

This industrial floor scrubber machine is engineered for high-capacity cleaning environments. It features a robust design with multiple scrubbing heads and adjustable controls to ensure optimal performance on various surface types. Built with a durable frame, it provides long-lasting reliability for heavy-duty industrial sanitation tasks.

Technical Specifications

Scrubbing Heads	2 heads
Construction Material	Reinforced Steel

Key Features

Core Features	High Capacity, Adjustable Controls, Industrial Grade, Easy Operation
---------------	--

Maintenance Components

Compatible Scouring Pads

- Stainless steel scouring pads
- Heavy-duty cleaning strands
- Scratch-resistant materials
