

Industrial Four-Pin Electrical Plug

This is a yellow and white industrial electrical plug with four pins, designed for heavy-duty applications. It is constructed from durable materials to withstand harsh environments and ensure reliable electrical connections in industrial settings.

Product Overview

Industrial Four-Pin Electrical Plug

This industrial-grade four-pin electrical plug is engineered for high-performance and reliability in demanding environments. Featuring a robust construction, it is built to withstand harsh conditions, ensuring safe and consistent power delivery. Its integrated hinged cover provides essential protection for the pins when the unit is disconnected, enhancing longevity and safety in heavy-duty applications.

Technical Specifications

Number of Pins	4
Key Features	Heavy-duty, Industrial Grade, Hinged Protection Cover, Durable Construction
Appearance	Yellow and White
