

Industrial Gaskets and Washers for Sealing

Industrial gaskets and washers are designed for sealing and fastening applications in machinery. These components are essential for maintaining pressure and preventing leaks in various industrial systems.

Product Overview

Industrial Sealing Solutions

These industrial gaskets and washers are precision-engineered for critical sealing and fastening applications within complex machinery. Designed to maintain optimal pressure and prevent fluid or gas leaks, these components are essential for the reliability of industrial systems. They are available in a variety of configurations to meet diverse operational requirements.

Technical Specifications

Standard Sizes

Dimension Type	Value
Primary Size	532x128
Secondary Size	535x76cm

Material Standards

PETE • 305210H

Compatible Model Series

CF-06C, CF-3E, CF-10E, CF-08C, CF-09C, F-8E-1

Performance Metrics

Key Operational Metrics

2500 psi

Pressure Rating

2350 kg

Max Load

17.54 mm

Tolerance
