

Industrial High-Pressure Triplex Pump

This high-pressure triplex pump is designed for industrial applications. It features robust construction for durability and is suitable for fluid transfer and spraying tasks.

Product Overview

Industrial High-Pressure Triplex Pump

The 3WZ-120W is a high-performance industrial triplex pump designed for demanding fluid handling environments. Engineered for efficiency, it supports diverse industrial applications ranging from high-pressure spraying to large-scale irrigation. Its robust construction ensures long-lasting performance and reliability in professional settings.

Model Number

3WZ-120W

Technical Performance

Performance Specifications

5 HP

Minimum Required Power

10 HP

Maximum Required Power

41 KGS

Total Weight

Operation Details

Function	RPM	Suction (L/min)	Pressure (MPa)
Spray	500-600	65-78	1.5-3.5
Irrigation	800-900	103-116	1.0

Mechanical Design

Piston Configuration

3 Pistons, 38mm Diameter, 38mm Stroke

Physical Dimensions

Packaging Dimensions

60 x 42 x 55 cm
