

Industrial High-Velocity Electric Fan

This is a high-velocity electric fan designed for industrial or commercial use. The fan features a large-diameter fan blade enclosed within a safety cage and is mounted on a height-adjustable stand for stability.

Overview

Industrial High-Velocity Performance

This industrial high-velocity electric fan is engineered for demanding commercial and industrial environments. Featuring a large-diameter blade design enclosed in a robust safety cage, it delivers powerful airflow for effective cooling and ventilation in expansive spaces. The unit is supported by a heavy-duty, height-adjustable stand with a four-legged base to ensure maximum stability during operation.

Key Features

Design Highlights

- High-velocity airflow output
- Large-diameter fan blades
- Integrated safety cage
- Height-adjustable stand
- Four-legged stabilizing base

Application

Suitable Environments

Industrial, Commercial, Large Spaces
