

Industrial High-Velocity Stand Fan

This high-velocity industrial stand fan is designed for powerful airflow. It features a robust metal construction with an adjustable-height pole and sturdy base for stability.

Overview

Industrial High-Velocity Performance

This industrial stand fan is engineered for high-velocity airflow, making it an ideal solution for large spaces requiring effective ventilation. Built with robust metal construction, it features a protective circular safety cage and high-performance blades designed for maximum air displacement. The unit includes an adjustable-height pole and a heavy-duty circular base, ensuring stability and versatility in demanding commercial and industrial environments.

Design & Construction

Material	Metal
Safety Features	Circular Safety Cage, Industrial Grade

Adjustability

Height Adjustment	Yes
Base Design	Sturdy Circular Base
