

Industrial Measuring Tape 5M/16ft

This industrial measuring tape features a nylon-coated blade for durability. It offers both metric (5M) and imperial (16ft) measurements with a 25mm blade.

Product Overview

Professional Industrial Measuring Tape

This industrial-grade measuring tape is designed for precision and durability in demanding work environments. It features a robust ABS casing with a TPR grip for impact resistance and comfortable handling. The blade is nylon-coated for extended longevity and includes both metric and imperial scales for versatile application.
