Industrial Portable Power Distribution Box with Multiple Outlets

This portable power distribution box provides multiple outlets for distributing power in industrial settings. It features a rugged enclosure with a carrying handle for easy transport and setup.

Overview

Industrial Power Distribution Solution

This industrial portable power distribution box is designed for demanding environments such as construction sites and workshops. It features a rugged ABS engineering plastic enclosure and comes pre-wired for immediate installation. With multiple output sockets and integrated circuit protection, it provides a reliable and safe solution for temporary power distribution.

Technical Specifications

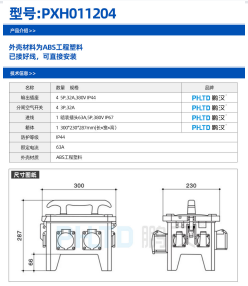
Protection Level
IP44

Model Number	PXH011204
Rated Current	63 A
Enclosure Material	ABS Engineering Plastic

Dimensions

Dimensions (L x W x H)	300mm x 230mm x 287mm

Components



Detailed view of the industrial power distribution box components and layout.

Integrated Components

Component	Quantity	Specifications
Output Sockets	4	5P, 32A, 380V, IP44
Branch Air Switches	4	3P, 32A
Concealed Plug Inlet	1	63A, 5P, 380V, IP67
