Product Overview

Industrial Power Solutions

These industrial power sockets are engineered for high-performance power distribution in the most demanding environments, including factories and construction sites. Featuring robust housings and advanced sealing technology, they provide reliable connectivity for various amperage requirements. Each unit is built to withstand harsh conditions, ensuring long-term safety and consistent electrical performance for professional infrastructure.

Electrical Specifications

Rated Current

125 A

Max Amperage

Voltage Range

110-440V AC

Environmental Protection

Ingress Protection (IP) Ratings

IP44 • IP67

Compliance and Standards

Certifications

SAA, CE
