

Industrial Ride-On Floor Sweeper

This is a ride-on floor cleaning machine designed for industrial or commercial use. It features a robust build with a driver platform and a large collection bin.

Overview

Industrial Ride-On Floor Sweeper

This industrial ride-on floor sweeper is engineered for high-efficiency cleaning in large-scale indoor and outdoor environments. Featuring a robust chassis, a dedicated driver platform, and a powerful sweeping mechanism, it provides operators with excellent control and maneuverability. The integrated large-capacity collection bin ensures extended operation times, making it an ideal solution for maintaining cleanliness in warehouses, factories, and commercial facilities.

Technical Specifications

Key Design Features

- Operator platform
- Steering wheel control
- Front-mounted sweeping mechanism
- High-capacity collection bin
- Heavy-duty wheel system

Machine Type	Ride-on floor sweeper
Application	Industrial, Commercial, Indoor, Outdoor
