

Industrial Sewing Machine for Garments and Shoes

This high-performance industrial sewing machine is designed for garment, shoe, and accessory manufacturing. It offers precision stitching and efficient operation for high-volume production environments.

Overview

High-Performance Industrial Sewing Solution

This industrial sewing machine is engineered for high-volume manufacturing environments, specifically targeting the garment, shoe, and accessory industries. It combines robust construction with precision engineering to ensure consistent stitching quality across various materials. Designed for efficiency and durability, it is an essential asset for professional textile production lines.

Performance Metrics

Model Number	TY-GN6000/700
Key Features	Adjustable Stitch Length, Automatic Lubrication, High-Volume Production, Durable Construction

Applications

Suitable Industries

Garment Manufacturing • Footwear Production • Accessory Manufacturing • Textile Industry
