

Industrial Slurry Transfer Pump

This heavy-duty industrial pump is designed for robust performance in demanding applications. It is ideal for use in mining, dredging, and slurry transport applications.

Product Overview

Heavy-Duty Slurry Handling

This industrial slurry transfer pump is engineered for robust performance in the most demanding environments. Featuring durable construction with a sturdy base and secure bolted assembly, it ensures reliable fluid transfer even under harsh conditions. Its specialized design and flanged connections make it an ideal solution for critical applications in mining, dredging, and high-volume slurry transport.

Technical Specifications

Construction Features

- Heavy-duty industrial design
- Sturdy base for stability
- Bolted components for secure assembly
- Flanged connection for reliable transfer
- Corrosion-resistant finish

Finish Color

Blue

Primary Applications

Mining, Dredging, Slurry Transport
