

Industrial Valve

This industrial valve provides reliable flow control for various fluids and gases. It is suitable for use in a wide range of industrial applications.

Product Overview

Industrial Valve Solutions

This industrial valve is designed for high-performance fluid control applications within demanding B2B environments. Engineered for durability and reliability, it ensures precise flow regulation and long-term operational efficiency. Its robust construction makes it an ideal component for critical industrial infrastructure and processing systems.

Technical Specifications

Performance Metrics

16 bar

Pressure Rating

150 °C

Max Temperature

Compliance

ISO 9001, CE Certified

Materials and Build

Materials

- Stainless Steel Body
- EPDM Seals
- Reinforced Actuator

Maintenance

Maintenance Summary

Component	Action
Seals	Inspect annually
Valve Seat	Replace as needed
