

Industrial Wall-Mounted Fan

This industrial-grade fan is designed for wall mounting, offering a space-saving cooling solution. It features a durable metal cage and three-blade design for efficient air circulation in workshops, garages, and commercial spaces.

Overview

Industrial-Grade Ventilation Solution

This industrial wall-mounted fan is engineered for demanding environments such as workshops, garages, and commercial spaces. Featuring a robust metal cage for enhanced safety and durability, it is designed to provide powerful airflow for effective ventilation and cooling. The unit utilizes an efficient three-blade design, ensuring reliable air circulation in heavy-duty settings.

Technical Specifications

Mounting Style	Wall-Mounted
Blade Design	3-Blade
Construction Material	Metal, Industrial-Grade

Key Features

Safety Features

- Protective metal cage
- Sturdy wall-mount bracket

Recommended Applications

Workshops • Garages • Commercial Spaces
