

Industrial Washer Extractor

This industrial washer extractor is designed for heavy-duty laundry applications. It combines washing and extraction functions with a programmable computer control system for automated operation.

Overview

High-Efficiency Industrial Washer Extractor

This industrial-grade washer extractor is designed for heavy-duty laundry applications in hotels, hospitals, and commercial laundry facilities. It features a robust 304 stainless steel construction for both the drum and body, ensuring long-term durability and stain resistance. With a fully programmable computer control system and advanced suspension technology, it delivers stable, high-performance washing and extraction while significantly reducing energy and water consumption.

Performance & Capacity

Load Capacity

15 kg

Minimum Capacity

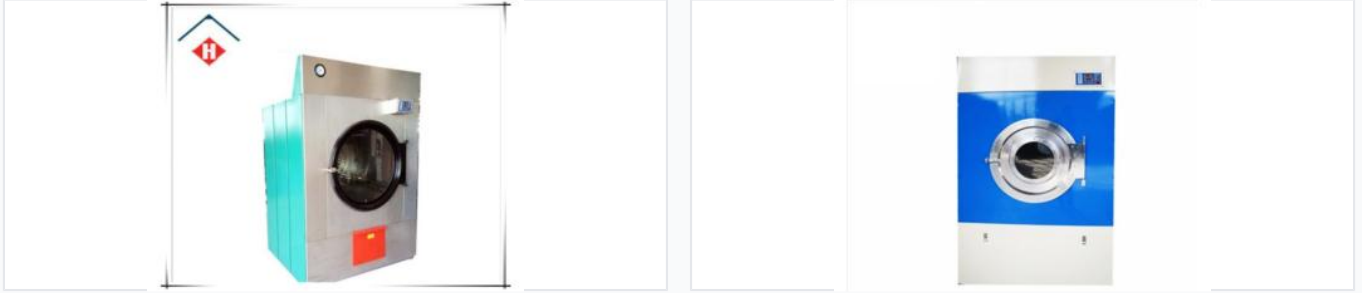

100 kg

Maximum Capacity

Available Models

- XPQ-15
- XPQ-20
- XPQ-30
- XPQ-50
- XPQ-70
- XPQ-100

Technical Features

Material	304 Stainless Steel (Drum and Body)
Heating Method	Steam Heating, Electrical Heating
Control System	Touch-type programmable micro-computer with LED display
Suspension System	Complete suspension structure with liquid pressure buffers and springs
