

Industrial Welding Machine

This industrial welding machine is designed for various welding applications. It features adjustable settings for precise control over welding parameters.

Overview

Industrial Welding Power

This industrial welding machine is engineered for versatility and high-performance in demanding manufacturing and construction environments. It features highly adjustable settings, allowing operators to maintain precise control over critical welding parameters during operation. Built for heavy-duty tasks, the unit combines a robust, durable enclosure with integrated wheels to ensure excellent portability across industrial workspaces.

Technical Specifications

Performance Metrics

350 A

Max Output Capacity

Model ID

WSE-350

Design and Build

Suitable Environments

- Manufacturing
- Construction

Mobility Features

Wheeled Base, Portable, Heavy-duty Enclosure
