Overview

Industrial Inline Inkjet Printer

This industrial-grade inline inkjet printer is designed for seamless integration into production lines, offering reliable marking and coding capabilities. Featuring a lightweight, portable design and a user-friendly interface, it allows for direct parameter adjustments without the need for an external computer. It utilizes quick-dry ink technology and a high-capacity removable battery, ensuring efficient, continuous operation in demanding industrial environments.

Technical Specifications

Model Number	LX-MX1
Net Weight	1.2 kg
Printing Technology	TIJ 2.5

Performance Metrics

Battery Printing Capacity

300000 chars

Characters per charge

Support & Maintenance

- 7*24 Technical support
- Lifetime maintenance
- One year free warranty
