

Insulated Electrical Cable

This is an insulated electrical cable suitable for various wiring applications. It is wound tightly on a wooden spool for convenient handling and use.

Product Overview

High-Quality Insulated Cabling

This insulated electrical cable is designed for professional electrical applications, ensuring reliable performance and durability. Featuring a light gray insulation, the cable is neatly wound on a wooden spool for easy handling and installation. With consistent specifications across the spool, it is ready for immediate use in various wiring projects.

Technical Specifications

Configuration	2x23/0076
Insulation Color	Light Gray
Packaging	Wooden Spool
Suitable Applications	Electrical Wiring, Industrial Installations, General Purpose
