Product Overview

Reliable Outdoor Solar Lighting

This integrated solar street light offers a sustainable, off-grid solution for roadways, pathways, and public lighting. Designed for high efficiency, it features a Grade A monocrystalline solar panel and a high-performance lithium battery providing reliable backup during overcast periods. The robust IP65-rated construction ensures longevity and performance in diverse weather conditions.

Technical Specifications

Ingress Protection

IP65

Battery Backup Duration

5 days

Max Rainy Day Backup

Core Components

- Grade A Monocrystalline Solar Panel
- High-performance lithium battery
- Hermetically-sealed battery protection cover
- Waterproof street light connector
- Stainless steel waterproof switch

Power Output Options

20W, 30W, 40W, 50W, 60W, 80W, 100W, 120W
