

Internal Combustion Engine

This internal combustion engine is a robust and reliable power source designed for various applications. Its compact design and user-friendly interface make the engine easy to install and maintain, delivering consistent power output.

Product Overview

Professional Grade Performance

This 4-stroke air-cooled gasoline engine is engineered for stability and high power output in demanding professional environments. It features a user-friendly design with easy-pull starting and efficient fuel consumption, ensuring cost-effective operation. Built to be rugged and reliable, it offers reduced noise and vibration levels for improved operator comfort.

Technical Specifications

Key Performance Metrics

13 Hp

Max Output

26.5 N.m

Max Torque

389 cc

Displacement

Detailed Engine Specs

Parameter	Value
Engine Type	4-Stroke, Air-cooled, OHV Gasoline
Bore x Stroke	88x64 mm
Ignition System	Transistorized Magneto
Spark Plug	F7TC
Fuel Consumption	275 g/hp.h
Lubrication Oil	SAE 10W/30

Operation and Maintenance

Operational Capacities

- Fuel Tank: 6.5 L
- Lubrication Oil Volume: 1.1 L
- Starting System: Recoil or Electric
- Stop System: Ignition Primary Circuit Ground

Logistics and Physical

Dimensions and Weight

- Gross Weight: 33 kg
- Dimensions: 542 x 500 x 507 mm
- Noise Level at 7m: 90 dB

Shipping Capacity

20ft container: 176 units, 40ft container: 384 units
