

IP67 Waterproof Digital Calipers

These digital calipers are designed for taking accurate measurements across a variety of applications. Their IP67 waterproof rating ensures resilience against dust and water damage.

Product Overview

High-Precision Measurement Tool

These digital calipers are engineered for professionals requiring high-precision measurements in demanding environments. Featuring an IP67 waterproof rating, they offer robust protection against dust and water ingress, ensuring reliability in manufacturing and quality control settings. The clear digital display minimizes reading errors, making them an essential tool for engineering and precision machining tasks.

Technical Specifications

Ingress Protection

IP67

Sample Readings

- 18.1
- 20.04

Model Identifier

110-801G

Key Features

Product Highlights

Waterproof, Dustproof, Digital Display, High Accuracy
