

# Island Mount Kitchen Ventilation Hood with LED Lighting

This kitchen ventilation hood is designed for island installations. It features multiple fan speeds, controlled by push buttons, and integrated LED lighting.

## Product Overview

### Modern Island Ventilation Solution

The KLF-110M Island is a sophisticated kitchen ventilation hood designed specifically for island installations. Featuring a sleek stainless steel finish with a glass canopy, this unit combines aesthetic appeal with high-performance functionality. Its powerful motor ensures efficient removal of smoke, odors, and grease, while integrated LED lighting provides excellent visibility over the cooking area.
