

JIS Standard Globe Valve

This industrial globe valve is designed according to JIS standards and features a flanged connection for secure installation. Constructed from durable materials, this valve is suitable for regulating flow in various industrial applications.

Product Overview

JIS Standard Globe Valve

This industrial globe valve is engineered to meet strict JIS standards, ensuring compatibility and reliability in demanding piping systems. Featuring a robust flanged connection design, it provides a secure and leak-resistant installation for flow regulation. Built from durable materials, this valve is suitable for a wide range of industrial applications requiring precise control.

Technical Specifications

Standard

JIS

Size Range

1/2" - 12"

Pressure Rating

20K

Material Grade

CF8

Connection Type

Flanged
