

# Kitchen Countertop Blender with Speed Settings

This kitchen blender features a glass jar and a stainless steel base. It offers multiple speed settings controlled by a rotary dial, including ice crush/pulse, puree, chop, mix, stir, and liquefy.

## Product Overview

### Kitchen Countertop Blender

This versatile kitchen blender is designed for efficiency and durability, featuring a robust 500-watt motor housed in a sleek brushed stainless steel body. It comes equipped with a generous 1.5L glass jar, making it suitable for both small and large food preparation tasks. With intuitive speed control and specialized functions like ice crushing, it provides professional-grade performance for any commercial or residential kitchen environment.
