

Kitchen Ventilation Hood with Touch Controls

This range hood efficiently removes smoke, steam, and odors from the kitchen. It features a black glass control panel with touch-sensitive buttons and durable stainless steel construction.

Product Overview

Professional Kitchen Ventilation

This modern kitchen ventilation hood combines durable stainless steel construction with a sleek black glass finish to complement any contemporary kitchen. It features an efficient 3-speed touch control system for effortless operation, integrated with a delayed shutdown function and low-energy LED lighting. Designed for high performance, it offers a robust extraction rate to ensure a clean and comfortable cooking environment.
