

Kitchen Ventilation Range Hood

This range hood is designed for kitchen ventilation. It removes smoke, grease, and odors from the cooking area.

Product Overview

Professional Kitchen Air Quality Solution

This high-performance stainless steel range hood is engineered for efficient kitchen ventilation in demanding environments. Its sophisticated cylindrical chimney design and wide capture area ensure optimal extraction of smoke, grease, and cooking odors. By maintaining cleaner air, it provides a more comfortable and productive environment for any culinary workspace.

Technical Specifications

Design Features

- Cylindrical chimney architecture
- Wide capture area for maximum airflow
- Integrated tactile control interface

Material Composition

Stainless steel

Compliance and Ratings

Core Benefits

Grease Removal • Odor Neutralization • Smoke Extraction

Recommended Application

Commercial Kitchens, Hospitality, Catering
