

KTA19 Series Diesel Generator

The KTA19 Series diesel generator is a robust and reliable power solution designed for a variety of applications. This generator features a heavy-duty diesel engine coupled with a high-efficiency alternator, providing stable and consistent power output.

Overview

KTA19 Series Diesel Generator

The KTA19 Series diesel generator is a robust and reliable power solution engineered for demanding industrial, commercial, and emergency power requirements. Featuring a heavy-duty diesel engine paired with a high-efficiency alternator, this unit ensures stable and consistent power output for critical operations. Designed for long-term performance and durability, it includes an integrated radiator cooling system and a comprehensive control panel for precise monitoring and protection.

Technical Specifications

Engine Type	Heavy-duty diesel engine
Cooling System	Radiator cooling system

Features

Key Features

- High-efficiency alternator
- Integrated control panel
- Monitoring and protection functions
- Sturdy base frame for secure installation

Applications

Suitable Applications	Industrial, Commercial, Emergency Power
